Outdoor Decorations for the Home

OON will come the cheerful months, when the family spends much of its time in the out-of-door portion of your home. And it is now that you should begin to think of preparing your grounds for the happy summer days.

The purpose of this little book is to show you what can be done in beautifying the home grounds by means of a little money invested in ornamental trees and shrubbery.

The wise home-lover plans to invest from five to fifteen dollars each year in permanent home decorations of this kind. Where good judgment is used in the selection of the plants and their location, it does not take long to make the most unattractive location a veritable bower of loveliness.

Shrubs and trees are even more satisfactory than annual or perennial flowers, for they cost little, if any more, at the start, and they frequently live as long as the person who plants them.

It is not necessary to employ an expert to plant Douglas' Shrubs and Trees. They come to you in perfect condition, strong and full of life and vigor. Simply plant them according to our simple directions, and satisfaction is assured.

For more than sixty-seven years we have been recognized as one of the leading growers of ornamentals in the Middle West. For nearly seven decades, Douglas' goods have been sold direct to the planter under a positive money-back guarantee. And today there is hardly a town in the country that is not beautified by trees and shrubs which came from our nurseries here in Waukegan.

Our success has been due to two main factors: The best plants that can be grown anywhere,—and prices that are lower than you are asked to pay for the same quality from any other source.

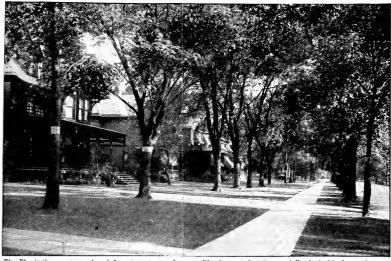

As compared with prices asked by others, we can often save you from one-half to two-thirds of the total cost of your planting.

Consult our prices and compare them with those of other reliable growers. And then remember you can examine our stock at the depot. If your order does not come up to your expectations, send it back at our expense.

We pay transportation charges on all orders of \$3 or more to all towns between Chicago and Milwaukee; and we pay the freight back if you do not accept the shipment.

Look over the following pages, and make up your spring order now. Don't wait until the shrubs are in leaf, because we cannot dig shrubs and trees after they leaf out. Send your order in now, and we will ship the goods when you want them. Full directions come with every shipment.

A few dollars invested in this way will make any home a happier one, and will increase its value many times the cost of the planting.

The Elm is the most popular of American trees. Its vase-like form makes it especially desirable for parkways, but it is an admirable all-round tree.

Hardy Flowering Shrubs

Shrubbery plays an important part in planting of grounds. Hardy perennials and annuals have their place, but with all their beauty there is something lacking, unless the landscape is blended with hardy flowering shrubs. With the many varieties of flowering shrubs and variation of color it is a simple matter to have a succession of charming flowers even on the small lot.

Shrubbery is planted at the foundations of our homes so that graceful lines connect walls and ground, driveways are bordered, property is marked out with shrubbery borders, inclosures for the flower-garden, and the screening of unsightly objects are but a few of the many uses of hardy flowering shrubs. Moreover their ease of cultivation, and the fact that they increase in beauty and charm from season to season, are some of the reasons why they are being planted in increasing numbers each year.

Baccharis halimifolia. Groundsel Tree. (2) Dark green leaves, with very attractive, fluffy white seed-pods in fall. 3 to 4 ft., 30 cts each, \$2,50 for 10.

Berberis Thunbergii. Japanese Dwarf Barberry.

(1) A handsoma draw is all processors.

(1) A handsome shrub in all positions. Of dwarf habit; small green foliage, which changes to a beautiful coppery red in fall. Bright crimson berries hang on all winter. Makes an ideal hedge. Green Barberry. (2) A handsome shrub with

Green Barberry. (2) A handsome shrub with golden yellow flowers; foliage turns brilliant crimson in fall; bright crimson berries.

Purple Barberry. (2) Dark purple foliage; golden yellow flowers, followed by reddish berries.

Cratægus coccinea. A striking native Thorn, with white blossoms, followed by scarlet fruit. Blooms profusely in spring and is very brilliant, both in flower and fruit. 3 to 4 ft., 30 cts. Deutzia Lemoineii. (i) A grand dwarf, free-

Deutzia Lemoineii. (1) A grand dwarf, free-flowering variety. Flowers pure white, on slender branches. 1½ to 2 ft., 20 cts., each, \$1.80 for 10.

Deutzia, Pride of Rochester. (2) The best

tall Deutzia. Large, double flowers in great profusion. Red-branched Dogwood. (3) Tall, rapid-growing shrub, with red bark in winter. Valuable for screening. Should be planted in front of evergreens for best winter effect.

(1), denotes shrubs attaining a height of 1 to 4 feet when matured; (2), 5 to 8 feet; (3), 9 to 12 feet All varieties, except where noted, 2 to 3 ft., 20 cts. each, \$1.80 for 10; 3 to 4 ft., 25 cts. each, \$2.25 for 10. Prices for hundred lots on application

HARDY FLOWERING SHRUBS, continued

Forsythia, or Golden Bell. (2) The Forsythias are graceful, with an abundance of yellow blossoms before the leaves appear.

Forsythia Fortunei. Upright habit and deep green foliage.

Forsythia intermedia. Semi-drooping habit, with glossy green leaves.

Forsythia Suspensa. Graceful, long, slender branches and shiny, dark green leaves. Not so hardy as two preceding varieties.

Golden Elder. (3) The best golden-leaved shrub. Rapid grower.

Golden Willow. 6 to 8 ft., 35 cts. each, \$3 for 10. Hydrangea paniculata grandiflora. (1) The most desirable Hydrangea. Undoubtedly the showiest shrub in cultivation. The beautiful, long, white plumes appear in August after other shrubs have ceased flowering and last throughout autumn. These attractive blossoms are first white, gradually turning pink and then to bronze. 1½ to 2 ft., 20 cts. each, \$1.80 for 10.

Indian Currant. Coral Berry. (2) Drooping in habit, with clusters of deep red berries. Very

desirable for edges of ravines.

Japan Quince. (2) The blazing Japanese Quince that flowers so early in the spring. Bright red blossoms; bright, shiny leaves, and a tart fruit which makes excellent jelly. A splendid hedge plant.

Lonicera Tatarica. Bush Honeysuckle. (3) Vigorous-growing shrubs with pink-and-white blossome. Used for screening and backgrounds.

Lilacs, Purple and White. (3) The Lilacs are leading favorites among the old-fashioned flowers. Their grand, fragrant blossoms add charm to the landscape in spring. Very desirable for forming a tall, dense border or screen.

Lilac, Villosa. (3) A Japanese variety. Fine for single specimens. It forms a dense, compact, globular head; very striking with its lilaceous pink blooms. 3 to 4 ft., 35 cts. each, \$3 for 10.

Persian Lilac. (3) A popular variety, with small foliage and bright purple flowers. 35 cts. each, \$3 for 10.

Privet. See Hedge Plants.

Philadelphus coronarius. Mock Orange. (3) Tall-growing with white, highly scented flowers.

Philadelphus grandiflorus. Large-flowering Mock Orange. (3) One of the most popular of all shrubs, and one of the very best where tall-growing sorts are wanted for screening unsightly objects, or as a background to other shrubs. When in bloom the bush is a mass of large, pure white, sweetscented blossoms. A rapid grower.

Philadelphus Hybrids. These hybrid Mock Oranges are extremely desirable for their wonderful free-flowering qualities. Each bush is loaded with pure white blossoms, and all have clean, strikingly attractive foliage. We offer four varieties as follows:

Bouquet Blanc. Upright grower. Conquete. Medium-tall grower.

Nivalis. Upright grower.

Zeyherii. Medium-tall grower.

Small grounds can easily be artistically planted with shrubbery at little cost. Nothing is more attractive than the early spring-flowering Forsythias.

(1) denotes shrubs attaining a height of 1 to 4 feet when matured; (2), 5 to 8 feet; (4), 9 to 12 feet All varieties, except where noted, 2 to 3 ft., 20 cts. each, \$1.80 for 10; 3 to 4 ft., 25 cts. each, \$2.25 for 10. Prices for hundred lots on application

A small investment in shrubbery and wise selection has wonderfully improved the appearance of this small front yard

HARDY FLOWERING SHRUBS, continued

Rhus typhina laciniata. Cut-leaved Staghorn Sumac. (3) A picturesque shrub, with deepcut, light green foliage which turns a brilliant red. In winter the branches stand out like a stag's horn.

Spiræa Van Houtteii. Bridal Wreath. (2) Absolutely hardy and easy to grow, it can be fitted in almost anywhere. The long, slender, arching branches are covered with a profusion of pure white bloom in May, making a wonderful sight. When planted as a background for Berberis Thunbergii the effect is very ornamental. Valuable for planting around the house or in shrubbery beds.

Spiræa, Anthony Waterer. (1) A remarkable free-flowering, dwarf-growing shrub. Grows 2 to 3 feet high, and its bright rosy crimson flowers bloom throughout the summer, in flat-topped clusters. Valuable for shrubbery beds and at the base of groups or borders of shrubbery. 9 to 12 inches 20 cts. each, \$1.80 for 10.

Spiræa callosa alba. (I) A beautiful dwart shrub having the same grand characteristics as Anthony Waterer, but with white blossoms through

out summer. I to 1½ ft., 20 cts. each, \$1.80 for 10 \$5piræa opulifolia. Ninebark. (2) A rapid-growing shrub, with white flowers. Makes a dense bush; fine for massing. 2 to 3 ft., 18 cts. each, \$1.50 for 10.

Snowberry. (2) A popular shrub, with small pink flowers and white berries.

Tamarix. (2) A very attractive shrub, with small, delicate leaves and pink flowers in spikes.

Viburnum Lantana. Wayfaring Tree. (3) Large shrub, with corded, dark green leaves and flat clusters of white flowers. 2 to 3 ft., 25 cts. each, \$2.25 for 10; 3 to 4 ft., 35 cts. each, \$3 for 10.

Viburnum Opulus. High Bush Cranberry. (3) For dense massing our native High Bush Cranberry cannot be excelled Its beautiful foliage and striking clusters of red berries in the fall make it the admiration of all. It should be generously used in all shrubbery planting.

Viburnum Opulus sterile. Snowball. (3) A very ornamental shrub, with large balls of bloom. Perfectly hardy and easy to transplant. The Snowball has its place in every group of shrubbery, and it is one of the very best for a single specime.

Weigela, Eva Rathke. (2) A popular shrub on account of its brilliant crimson flowers which come in great profusion and last a month. 2 to 3 ft., 25c. each, \$2.25 for 10; 3 to 4 ft., 35 cts. each, \$3 for 10. Weigela rosea. (2) A free-flowering, vigorous

Weigela rosea. (2) A free-flowering, vigorous shrub. The showy rose-colored flowers literally cover the branches. 2 to 3 ft., 25 cts. each, \$2.25 for 10; 3 to 4 ft., 35 cts. each, \$3 for 10.

(1) denotes shrubs attaining a height of 1 to 4 feet when matured; (2), 5 to 8 feet; (3), 9 to 12 feet All varieties, except where noted, 2 to 3 ft., 20 cts. each, \$1.80 for 10; 3 to 4 ft., 25 cts. each, \$2.25 for 10. Prices for hundred lots on application

Evergreens

Evergreens have become so popular the past few years, through their many commendable characteristics, that a planting is now seldom done without using some Evergreens. Doubtless the chief reason for this popularity is the cheerfulness they afford during the cold, bleak winter when everything is dull and dreary.

Beautiful effects can be made by the proper use of Evergreens at entrances and around the house. The dwarf-growing sorts, mixed in with Spruces of various shades, either in beds or groups, lend tone and refinement to the grounds, while lawn specimens here and there add dignity to the surroundings.

B & B indicates those varieties sent out with a ball of earth and burlaped

Siberian Arborvitæ. A semi-dwarf evergreen, with deep green foliage. 2 to 3 ft., B & B, \$2 each.

The showy Hydrangea should not be overlooked on any home grounds

Japanese Cypress. An exceedingly handsome, dwarf golden Japanese evergreen, with soft, plume-like, golden foliage. Should be in every evergreen collection. Fine for porch decoration. 1½ to 2 ft., B & B, \$2 each.

Blue Virginia Cedar (Juniperus Virginiana glauca). An upright grower, similar to Red Cedar, but with striking blue foliage, almost as intense as blue spruce. An exceedingly handsome evergreen for the lawn or about the house. 3 to 3½ fr., B & B, §-2.50 each.

Savin Juniper. This dwarf, dark green evergreen, with spreading habit, is very desirable for grouping with other evergreens, at entrances or around the house. 1½ to 2 ft., B & B, \$1 each.

Dwarf Mountain Pine. The best dwarf evergreen in existence. Seldom exceeds 5 feet in height. Forms a compact, round head and makes a splendid tree for grouping at the base of larger evergreens. Now largely used for entrance planting or bordering drives. I ft., B & B, \$t each.

White Pine. The most widely planted Pine. Being a rapid grower, with long, soft, feathery needles, it soon forms a tall, graceful tree. Much used for screens and lawn specimens. Each 10

Scotch Pine. A rapid-growing tree, with short, blue-green needles. Used largely for producing quick effects, as it is a rapid grower. 2 to 3 ft., 50 cts.

Austrian Pine. A sturdy, compact Pine, with long, stiff needles. A rapid grower and the outline is quite regular. 2 to 3 ft., 60 cts.

Concolor Fir. A highly ornamental evergreen for lawn specimens; foliage long, soft and graceful. 6 to 7 ft., B & B, \$7 each.

Balsam Fir. A rapid-growing Fir, with dark green foliage, silvery underneath. This tree differs from the ordinary Balsam Fir in having longer and darker needles, and is far superior to the common type.

4 to 5 ft\$2 00 5 to 6 ft2 50

(At these prices this is a bargain for screening, etc., for which purpose this tree is, perhaps, better adapted than the other evergreens.)

Wouldn't you enjoy Rose-arches like these, and this not than ever because they can it

Note this pleasing evergreen group. The effect is one of extent, but in reality it occupies only a small space. Blue Spruce, Japan Cypress and Blue Virginia Cedar in the foreground with White Spruce and Balsam Fir as a background

Deciduous Trees

Deciduous trees are divided into two classes—the soft-wooded, rapid-growing kinds, used for producing

compact Privet hedge? Rose-arches are more in favor now sed in so many varied situations

quick effects, and hard-wooded varieties which are slightly slower in growth. They are all highly ornamental, inexpensive and add greatly to the value of your home.

Norway Maple. A grand hardwooded Maple. Good grower; leaves dark green; round, dense head. Few trees are the equal of Norway Maple; for lining the sides of lanes, as a street and lawn tree, or for screening, it is hard to surpass.

8 to 10 ft. \$0 85 \$7 50

Schwedler's Maple (Purple-Leaf Maple). Similar to the Norway Maple, but has purple leaves. Contrasts well with other trees. 10 to 12 ft., \$2 each, \$17.50 for 10.

Carolina Poplar. One of the most popular park and street trees. Symmetrical head; glossy leaves; very rapid-growing.

Each 10

Lombardy Poplar. A tall, spire-like, fast-growing tree. Unexcelled for formal effects. 8 to 10 ft., 60 cts., each, \$5 for 10.

Ash. The sturdy Ash is a splendid lawn tree. Large, full head; one of the longest-lived of ornamental shade trees because it is strong, tough and practically insectproof. 9 to 12 ft., 50 cts. each, \$4.50 for 10.

Showing how easily the parkway can be made attractive. The Norway Maples are splendid trees for this purpose, and you can enjoy their beauty longer than most trees because they leaf out early and retain their leaves way into fall.

DECIDUOUS TREES, continued

European Mountain Ash (Rowan Tree). A fine tree. Dense head, covered all summer with large clusters of scarlet berries. 8 to 10 ft., 60 cts. each.

White Birch. A graceful tree of rapid growth, with white bark. 5 to 6 ft., 50 cts. each, \$4.50 for 10.

American Linden. A rapid-growing tree, with large, shiny leaves. 8 to 10 ft., \$2 each.

 $\begin{array}{cccc} \textbf{European Linden.} & A very fine tree, somewhat \\ pyramidal in form. Used largely for parkway planting and lawn specimens. & Each & 10 \\ 6 to & 8 ft & & $ 5 60 \\ 8 to & 10 ft & & 75 \\ \end{array}$

Willows. For quick effects, backgrounds to other shrubs or screening, Willows are always desirable. We offer four varieties.

Willow, Golden. Bright golden bark in winter. 6 to 8 ft., 40 cts. each, \$3.50 for 10.

Willow, Laurel. Large, glossy, laurel-like leaves. 5 to 6 ft., 35 cts. each, \$3 for 10.

Willow, Royal. Silvery gray leaves; handsome. 5 to 6 ft., 35 cts., \$3 for 10.

Willow, Weeping. Large tree, with long, drooping branches. 5 to 7 ft., 35 cts. each, \$3 for 10.

Pin Oak. The fastest-growing Oak. Leaves deep glossy green, turning to brilliant scarlet in fall. 5 to 6 ft., 75 cts. each.

Bechtel's Double-flowering Crab. A beautiful, sweet-scented Double-flowering Crab. Blossoms are a delicate shade of pink. 3 to 4 ft., 60 cts. each.

American Elm. Our noble native American Elm, with its wide-spreading top and graceful, drooping branches, cannot be surpassed in the shade-tree class. For parkway planting, on the lawn or lining drives it makes probably the most picture-sque and all-round satisfactory tree.

Each 10

English Elm. Wonderfully attractive tree. Medium tall-growing, with amazing variations of foliage, it is much in demand as a lawn tree. 6 to 8 ft., 60 cts. each, \$5 for 10.

Catalpa. Very fast growing; showy flowers and large leaves. 8 to 10 ft., 50 cts. each, \$4 for 10.

European Alder. A remarkably rapid-growing tree. Leaves round and wavy. Does well in moist soils. 5 to 6 ft., 35 cts. each, \$3 for 10.

The Rose · Queen of Flowers

Roses with their wonderfully fragrant blossoms are among the choicest treasures of our gardens, and no home grounds are complete without them.

Many beautiful varieties which succeed well in the South and East are utterly worthless here, and on that account the selection of sorts is of vital importance. For general planting, the varieties following are best adapted to this section. Roses do best in a well-drained, good garden soil with a sunny situation.

Except where noted, 30 cts. each, \$2.50 per doz.

HYBRID PERPETUALS

American Beauty. Crimson. Anna de Diesbach. Pink. Frau Karl Druschki. White. General Jacqueminot. Red. Margaret Dickson. White. Mme. Plantier. White. Mrs. John Laing. Pink. Paul Neyron. Pink. Harrison's Yellow. Yellow.

CLIMBING ROSES

Crimson Rambler. Dorothy Perkins. Pink. Lady Gay. Cherry-pink. Queen of the Prairie. Red. Tausendschon. White and pink.

MISCELLANEOUS ROSES

Baby Rambler. Crimson. Sweetbrier. Shell-pink. 15 cts. each, \$1.20 for 10 Rugosa. White. Rugosa. Pink.

Conrad Ferdinand Meyer (The New Tea Rugosa)

Vigorous grower; large, striking flowers of delicate silvery rose; absolutely hardy. We cannot recommend it too strongly.

Climbing Vines

Engelmann's Creeper. A popular, rapid-growing Ivy. Clings to walls without a wire trellis. 20 cts. each, \$1.80 for 10.

Boston Ivy. The well-known Boston Ivy, with its dense foliage, is the best vine for brick or stone. 20 cts. each, \$1.80 for 10.

Dutchman's Pipe. Has yellowish brown flowers resembling a pipe. 50 cts.

Japan Bittersweet. A very attractive vine, covered in autumn with light orange berries, which split open exposing a red seed. The sprays make delightful winter decorations for the house. Perhaps the best vine for running over stumps, dead trees, etc. 20 cts., each, \$1.80 for 10.

Clematis paniculata. Medium-sized, pure white blossoms. 25 cts. each.

Clematis Jackmani. Large; violet-purple flowers. 50 cts. each.

Monthly Fragrant Honeysuckle. Fragrant red flowers; blooms freely. 20 cts. each, \$1.80 for 10.

Hall's Honeysuckle. A vigorous grower; white flowers, changing to yellow. Blooms all summer and holds its leaves well into winter. Much used on porches. 20 cts. each, \$1.80 for 10.

Matrimony Vine. A rapid-growing vine, with purple flowers and scarlet berries. 20 cts. each, \$1.80 for 10.

Dwarf evergreens can be effectively used at entrances and grouping with larger evergreens. Dwarf Mountain Pine is one of the best for the purpose.

Hedges and Vegetable-Garden Borders

The popularity of Hedges for bordering property, lining drives, around formal gardens, etc., is constantly on the increase. From the list of satisfactory plants, any desired style hedge can be chosen. Evergreen Hedge, High Hedge, Low Hedge or Formal Hedge.

The vegetable-garden, usually the most unsightly part of the grounds, could be made vastly more attractive by planting Privet, Sweetbrier or Japan Barberry Hedges on its borders. These are all inexpensive and can be kept at any desired height.

Distances Apart for Planting

Privet, 9 inches; Japanese Barberry, 12 inches; Sweetbrier, 12 inches; Buckthorn, 12 inches; Japan Ouince, 14 inches; Arborvitæ (Evergreen), 18 inches.

Amoor River Privet. The best hardy formal hedge for this section. Its dense foliage stands trimming excellently and is almost evergreen. The cost to you of a hedge of this is 15 cts. per foot, and it is guaranteed hardy. 15 cts. each, \$1.35 for 10, \$12 per 100.

Sweetbrier. A rapid-growing hedge. Has graceful, arching branches which are covered with beautiful shell-pink blooms. The branches and leaves are highly fragrant, and when planted in numbers, as in a hedge, this fragrance is noticeable for a great distance. 15 cts. each, \$1.20 for 10, \$10 per 100.

Berberis Thunbergii. Informal, low hedge and usually allowed to grow untrimmed. The leading favorite for low hedges.

 Japan Quince. A rapid-growing, vigorous, tall hedge, with glossy green leaves. Has bright red flowers very early in spring. Largely planted for its tart fruit.

Buckthorn. For a tall hedge or screen, Buckthorn is one of the best. Very dense, compact and regular. 3 to 3½ ft., 20 cts. each, \$1.80 for 10, \$14 per 100.

Our price on Buckthorn Hedge Plants figures about 15 cts. per foot.

American Arborvitæ. (Evergreen.) For an evergreen hedge, Arborvitæ stands supreme. Grows rapidly to any desired height, is very healthy and stands trimming excellently. 1½ to 2 ft., 25 cts. each, \$2 for 10, \$15 for 100.

A Rose-garden can be easily arranged at a very small outlay for plants. Wouldn't a garden like this add greatly to your happiness?

This photograph shows an effective but inexpensive screening of this outbuilding from the residence.

Tall, rapid-growing trees form the screen, with a dense, compact Privet hedge bordering the drive

Fruit Trees

Think of the joys of having plenty of fruit for table use and preserving right from your own grounds. The space required is amazingly small, and a properly designed Home Orchard and Fruit-Garden adds much to the ornamental value and attractiveness of the grounds.

Don't befooled by agents' claims of early-bearing qualities for their trees. It takes a stated time for every tree or bush to commence bearing, depending on the variety. The following are best suited to this locality.

Apples

40 cts. each, \$3.50 for 10

SUMMER: Yellow Transparent, yellow. Red Astrachan, reddish yellow.

FALL: Fameuse, crimson. Wealthy, red. Duchess of Oldenburg, yellow.

WINTER: Delicious, red. Northern Spy, red. Northwestern Greening, yellow. Jonathan, red. Tolman Sweet, yellow. Winesap, red.

Crab Apples

40 cts. each, \$3.50 for 10

Hyslop, crimson. Whitney, glossy green. Transcendent, yellow.

Pears

50 cts, each, \$4.50 for 10

Anjou, green-yellow. Bartlett, yellow. Flemish Beauty, pale yellow. Kieffer, golden yellow.

Cherries

50 cts. each, \$4.50 for 10

Early Richmond, sour. Montmorency, sour. Black Tartarian, sweet.

Plums

50 cts. each, \$4.50 for 10

Burbank, cherry-red. German Prune, purple.

Peaches

35 cts. each, \$3 for 10 Elberta, large, golden yellow.

Grapes

15 cts. each, \$1 for 10, except where noted Catawba, red. Campbell's Early, black (25 cts.). Delaware, red. Niagara, white.

Currants

15 cts. each, \$1.25 for 10, except where noted Cherry, red. Fay's Prolific, red. Perfection, red (25 cts.). White Grape, white. Black Champion, black.

Gooseberries

20 cts. each, \$1.75 for 10, except where noted Houghton, red. Industry, red (25 cts.). Downing, white.

Blackberries

10 cts. each, 60 cts. for 10, \$4 per 100 Early Harvest. Snyder.

Raspberries

10 cts. each, 60 cts. for 10, \$4 per 100 Columbia, red. Cuthbert, red. Kansas, black.

Parcel-Post Department

To enable our patrons to take advantage of the new Parcel-Post service, we are conducting this department. The trees and shrubs sent are strong, vigorous plants, but younger than those described in the preceding pages. They will grow and produce fine specimens and are ideal for planting in your garden for a season or two and then removing to their permanent locations.

All plants are carefully packed and delivered to you free of charge. We pay the postage.

SHRUBS: A collection of one dozen shrubs, of six different varieties or less, taken from the list of Shrubs described in the preceding pages (your own selections), \$1.

The above collection does not include Hydrangea, Persian Lilac, Villosa Lilac or Weigela. These sorts are 12 cts. each.

EVERGREENS: Norway Spruce, Arborvitæ, White Pine, Scotch Pine and Austrian Pine, 10 cts. each. Blue Spruce, 25 cts. each.

Collections of Seedlings, \$1 each. Order by number.

- 1. 75 American Arborvitæ, 2 years.
- 50 Austrian Pine, 2 years.
- 3. 35 Colorado Blue Spruce, 2 years.
- 4. 40 Douglas' Spruce, 2 years.
 5. 100 Norway Spruce, 2 years.
- 6. 75 Scotch Pine, 2 years.

- 75 White Pine, 2 years.
- 50 White Spruce, 2 years.
- 50 Green Ash, 1 year.
- 10. 100 Catalpa speciosa, 1 year.
- 25 Japan Bittersweet, 2 years.

VINES: Boston Ivy, Engelmann's Creeper and Japan Bittersweet, 15 cts. each.

ROSES: A collection of six hardy, free-blooming sorts, in three varieties and three different colors, for \$1.

Hydrangea paniculata grandiflora
